re: BREITBURN ENERGY PARTNERS LP - CH 11 Case #: 16-11390

To: Hon. Judge Bernstein

Dear Sit,

I fully support the petition of Mr. G. Jayaraman et al for a Shareholder Committee to protect the rights of commons shareholders (like myself) and preferred, we do not have any say in the disposition of assets or any decisions leading up to the declaration of this Ch. 11 and should not be at the mercy of the Management mainly, the CEO, the Washburn Bros., and EIG major debt holder and others.

Mr. Jayaraman's petition seems to state the facts fairly. While I have no information as to the actions of Management and EIG et al, based on what I'm seeing all over the Message Boards, this seems very plausible. There is much apparent misinformation being spread also, some to scare everyone into selling off our shares for a pittance, would those involved then buy them back higher? Or will the shares truly just disappear?

Sincerely,

Judith Cantor
