Hello Judge Bernstein,

I am writing with concern in regards to the actions of the management of Breitburn Energy Partners. With company assets and the recent oil price rebound, there should be no reason that the common share holder like myself and thousands of others be the ones to suffer, if the company management has its way.

Recent news has brought to light the fact that they are considering bonuses for themselves and staff, while everyday people like myself and many others who provided part of the capital they used during the course of their business are left holding the bag. As an investor, I am aware of the risks involved in buying equity but I think its morally wrong not to even try to make people who invested in their company, whole.

Thank you for taking the time to read this and I hope you'll consider the request for the establishment of an Equity Committee, to give the little guy a fighting chance. Thank you.

Yours Sincerely,

Tunde Olugbeka.
