Subject: BREITBURN ENERGY BANKRUPTCY

Dear Judge Bernstein:

I am writing to you in total desperation about the BREITBURN ENERGY Bankruptcy. I am 89 years old and living on my limited retirement income and losing their dividends is monumental to me. First they acquired QR Energy which I had & now they are in Chapter 11 As of today my loss is \$40,031.11. I can never recover this loss which I need to receive ASSISTED LIVING. There is no reason for them to take such drastic action as oil is expected to move higher in the near future. Similar Companies, BUCKEYE PARTNERS (+1.48) & KINDER MORGAN ENERGY (+.29) .stock went up Friday. Now they go bankrupt just when others go up in price.

I am appalled by the mistreatment of us little people. They are manipulating the law to achieve this bankruptcy.

BBEP's oil/gas asset values appreciated greatly since 4/30/16 but Debtor is relying on net book value as of 4/30/16

Breitburn Management took 10 MILLION in disbursements in the last 90 days prior to filing for Chapter 11 & was not authorized by common stockholders.

It is not fair and they are lining their own pockets.. We need an EQUITY COMMITTEE quickly, to be established in this case. I beg you to do this for me and all the little stockholders.

I thank you for reading my plea and pray you will help.

Bankruptcy Case (16-11390)
