Revised and Updated Asset Valuation Summary

Valuation Update

- On March 3, 2017, the Trust posted a valuation of the assets transferred to the Trust on December 2, 2016.
- Consistent with the status of the Trust as a “grantor trust,” the net asset value transferred to the Trust represented proceeds realized by beneficiaries (i.e., holders of Wind Down Entity Interests) on their equity interests in Hercules Offshore, Inc. for U.S. federal income tax purposes.
- The final, revised valuation posted simultaneously with this advice via the worksheet “HERO Liquidating Trust Statement of Net Asset Value per Unit as of 12/2/16” gives effect to (i) adjustments to estimated realizable values of certain fleet assets, (ii) the allocation of approximately \$67.4 million of cash and liabilities to a disputed ownership fund (“DOF”) and (iii) the Wind Down Claim of \$254.3 million. Under applicable tax law, the DOF is taxed as a separate entity from the Trust. It is anticipated that any amounts remaining in the DOF after all claims have been paid or settled will be distributed to the beneficiaries of the Trust as additional consideration on their equity interests.

2016 Income and Expense Information

- Concurrently with this disclosure, the Trust is posting 2016 income and expense information for use by Trust beneficiaries for preparing their 2016 tax returns.

Disclaimer and Cautions

- The Trust cautions that the outcome of sales and resolution of liabilities and claims are subject to change. The actual outcome will differ from this estimate and differences could be material. There is no assurance that new claims will not arise.
- The valuation estimate is being provided only for the purpose of constituting a value to be used by the Debtors, the Trust, holders of the Wind Down Entity Interests and holders of the Lender Wind Down Claim for tax reporting purposes.
- The valuation estimate is not intended to represent the likely amounts to be realized by holders of the Wind Down Entity Interests or the Lender Wind Down Claim. Operating costs and the cost of completing the wind down have not been deducted.
